Product highlights

Polyphonic ringtones
A polyphonic ringtone means that the phone can play many tones simultaneously, so that an accurate musical performance is possible, and when played through the phone's speaker these polyphonic ringtones sound like real music.

Hands free on handset
The hands free speaker phone lets you hold a conversation while your're busy doing something else. With both the speaker and the microphone in front of the handset, it is just like talking face to face with your correspondent.

Free intercom
No need to stop what you are doing and go to give the handset to your son when his friend calls: you can freely and easily call the handset in his bedroom and transfer the call.

Plug & Play pack - 2 handsets
A convenient Plug & Play DECT-phone package including a base and 2 handsets.

Ergonomic Design
The smooth, rounded shaped handset fits perfectly in your hand for natural, balanced operation. It looks great too!

Backlit LCD display

Crystal Clear Sound Quality
The use of digital communication virtually eliminates interference, buzzing and hissing. It improves the intelligibility of messages left on the answering machine and even makes it possible for users to record and reproduce music.

Name and number display
The alphanumeric display offers the possibility to display numbers as well as letters, and lets to assign a name to a number.
